From the N. O. Picayune. THE TREATY OF PEACE.

The authority upon which it has been announced that a basis of accomodation has been arranged by Mr. Trist and the commissioners on the part of Mexico, is scarcely inferior to the parties concerned in making it. There is no doubt of the fact, that Mr. Trist, under the advice and sanction of Gen. Scott, has continued to exercise the functions of a negotiator, and that a paper, in form and substance a treaty of Peace, has been signed, sealed, and sent to Washington for approval. The terms of accommodation have in the main transpired. In their exact and precise phraseology they have not come to light, but enough is known to

enable one to infer theri purp r It appears that Mr. Trist and the Mexican commissioners have agreed that Peace shall be restored upon the following condi-

1. Mexico to code to the United States the States of New-Mexico and upper California, and acknowledge the Rio Grande as the boundary between the United States and Mexico, from the Gulf to the 32d degree of north latitude, where the river penetrates the State of Santa Fe, or New Mexico.

2. The United States is to pay a trifling compensation to Mexico for the cession of territory agreed upon.

3. The United States to garrison and hold

possession of certain posts in Mexico till the terms of the treaty are complied with. The United States Government had re-

called Mr. Trist, and revoked his powers before this treaty-or 'projet,' if the authority of Mr. Trist is repudiated in the premises-was formed. They may either adopt or reject the arrangement as they deem fit, but we do believe that if the terms agreed upon do not vary materially from their rep rted significations, they will be acquiesced in by the Administration and ratified by the Senate.

The terms of this arrangement differ from the proposition made by Mr. Trist at Tacubaya, during the armistice in September last, and to which Mr. Polk entered his unqualified dissent. in this important particular, by the terms of that proposition the territory between the Neuces and the Rio Grande was to be considered forever neutral, and subject to settlement by the citizens of neither Republic; the terms of the present accommodation approach more nearly the instructions prepared for Mr. Trist by the Department of State in the first instance. Mexico is to receive, perhaps, a smaller pe cuniary compensation, and the right of way across the isthmus of Tehuantepec is abandoned on our part.

Our advices leave us little room to doubt that the Mexican Government and Congress at Queretaro have already ratified the treaty. If this be so we may regard a speedy advent of peace as a settled matter.

DISTRESS AMONG WORKING CLASSES IN EUROPE -So great is the distress of the working classes in Vienna, that the funds of the public pawnbroking establishment have been exhausted by the numerous advances which it has made on pledges, and it has consequently contracted a loan of 1,000,-000 floring (about £104,000). The operatives and working people generally are in a sad condition in all the midland countries of England, and the recent cold weather, unusually cold for this country, has only increased their sufferings. At Stockport, the masters of every mill have posted at their doors a placard addressed to the operatives, stating, to the effect, that they have been compelled to reduce the wages of hands 10 per cent, in consequence of the depressed state of trade. A Manchester a reduction of wages has also taken place — At Birmingham the general condition of trade continues gloomy and unsatisfactory. The coal and iron masters have made a reduction in the wages of the operatives ;which has given great dissatisfaction and led to large meetings, consisting of from five to six thousand persons. In several instances the workmen have struck for higher wages. It is stated that in a short time there will scarcely be a pit or furnace at work throughout the mineral fields of South Staffordshire.

THE GROUND BROKEN.-The first spade was stuck in the great work of grading the G. & C. R. R. on Wednesday last, by Mr. D Frost, who has taken the contract through his plantation. Now that the work has been commenced, under favorable circumstances, we hope the croakers who have predicted that this Road would never be completed, will hold their peace, and give the energy and enterprize which is engaged in building it a change to show that they have commenced the "beginning of the end." There should be nothing spoken of it, but words of encouragement, and we hope all its true friends will give a heave and set to," for

JARAUTER's SADDLE.—The elegant sad- | proof that he was whit he professed to be, ble from Padre Jarauter was shot near the city of Mexico, by Col Hays's party of Rangers, carly in January, is now at St Charles hotel, New-Orleans, in possession of Doctor Barnes u. s. a. to whom it was presented. The pius Padre was fast recovering from his wound at last accounts from him; but he will yet fall into the hands of Lane, Hays or Wynkoop.

Few dealers in the country buy more than \$200 worth of stationery in a season, many not over one-half, and a large portion not more than one jourth that amount. There is not a dealer, therefore, who visits Philadelphia who would be inconvenienced by paying these small sums in Cash, and as each can save money by doing so, H. & T. believe they are offering an inducement which wil-gladly be embraced by those who make their purchases in Philadelphia. Those who make their purchases in Philadelphia.
